Patient has: DNACPR PaICall ACP

MOBILITY

How does the patient mobilise? (including walking aids and wheelchair use).....

.....
.....

Can the patient get in/out of their house independently? Yes No

Patients are eligible to attend the Wellbeing Centre if they meet Saint Catherine’s general referral criteria:

1. The person has progressive, incurable, and advanced disease and the focus of care is on quality of life.
2. The person has a need that cannot be met by any other available service.

All patients attending the Wellbeing Centre require a referral.

Patients can be directly referred to one or more disciplines via the MDT clinic, but please note that the clinic aims to offer Specialist Care input and does not replace input from primary health care teams eg. Community physiotherapy.

Referrals to the full day service will be prioritised according to need. Patients will be invited to attend for 8 sessions after which they will be discharged. Attendance may be extended at the discretion of the Wellbeing MDT, where there is an identified need.

Referrals made to the Education and Social/Wellbeing afternoon will remain open whilst the patient remains eligible, allowing them to drop-in to either or both service as they wish. Carers of eligible patients, are also able to attend the education and Social/Wellbeing sessions. Carers do not require a separate referral.

Most of the patient and carer education sessions can be accessed on a drop-in basis but some are bookable in advance. Please see Saint Catherine’s website for further information.

Please see ‘Saint Catherine’s Wellbeing Centre Information for Patients and Carers’ Leaflet for more information on the individual services
